

JOY-IT® DIGISPARK MICROCONTROLLER

26 x 12 mm sized microcontroller

The Digispark Mini is a 26mm x 12mm sized microcontroller. It can be directly programmed via the Arduino IDE. It is also equipped with 6 I/O Pins, 8K Flash, I2C and SPI.

MAIN FEATURES

Model	Digispark Microcontroller
Color	Black
Flash-storage	8K (6K + Bootloader)
compatible to	pcDuino, Arduino

FURTHER SPECIFICATIONS

Features	6 I/O pins (5 native, 6 after additional configuration) I2C + SPI
	PWM at 3 pins
	ADC at 4 pins
	Programmable via Arduino IDE
	Programming via USB

FURTHER DETAILS

Article no.	ARD-Digispark
EAN	4250236813127
Customs tariff no.	8542319000
Dimensions (WxHxD)	26 x 19x 12 mm
Scope of delievery	Digispark Microcontroller
