

KY-012

Active piezo buzzer module

When it is powered, the active buzzer generates a sound. This module can be soldered solidly or can be plugged on a breadboard. Furthermore, it is compatible to all Raspberry Pi and Arduino models.

MAIN FEATURES

Model	Active piezo buzzer module
Functions	Powered, the active buzzer generates a sound
Operating voltage	3 - 5,5V DC
Minimum sound output	85Db
Resonance Frequency	2500Hz ±300Hz

FURTHER DETAILS

Article No.	COM-KY012APB
EAN	4250236816814
Customs tariff No.	8542319000
Dimensions	15 x 25 x 12 mm
Scope of delivery	Active piezo buzzer module
