

KY-019RM

5 V Relay

With the relay you can switch higher voltages by using a 5V output. This module can be soldered solidly or can be plugged on a breadboard.

For your own safety, installations from 60 V upwards may only be done by a qualified electrician! When working on electrical devices / systems, there is a risk of electric shock which can lead to serious injury or death!

MAIN FEATURES

| | |
|--------------------|--|
| Model | 5 V Relay |
| Function | Relay for switching higher voltages by using a 5V output |
| Voltage range | 10 A / 250 V AC, 10 A / 30 V DC |
| Operating voltage | 5V |
| Dimensions | 26 x 38 x 18 mm |
| Scope of delievery | 5 V Relay |
