

DPM REMOTE CONTROL

WIRELESS CONTROL FOR DPM VOLTAGE CONVERTERS

JOY-IT

SPECIAL FEATURES

- ✓ Range up to 10 m
- ✓ Wireless RF transmission for interference-free access
- ✓ High-resolution 2.5" color display
- ✓ Complete remote control of all settings
- ✓ Configurable communication address and channels
- ✓ Integrated rechargeable battery for long-lasting operation
- ✓ Compact housing for flexible handling

Experience wireless freedom for your DPM power supply units: With the intuitive remote control, you can now conveniently control all voltage and current parameters from a distance - without the hassle of tangled cables. The brilliant color display provides clear feedback in real time and ensures that you always have an overview. This allows you to be flexible on the move, stay in control and adjust your devices to suit your needs.

Thanks to reliable RF transmission, you can master even demanding test and measurement setups with ease. The generous range allows you to design your working environment more freely and also adjust larger systems remotely. Whether you are supervising complex test set-ups in the laboratory or making quick adjustments in the workshop - the wireless connection always delivers stable performance.

Our ergonomically designed hand-held device fits perfectly in the hand and makes every operation a pleasure. The clearly structured menu navigation is as self-explanatory as it is efficient, allowing you to navigate between different power supply units and settings in no time at all. This reduces downtime and increases your productivity.

Rely on a companion that makes your day-to-day work easier all round: from prototyping to series testing and mobile applications - this remote control takes your DPM voltage converters to a new level of convenience and performance. Enjoy maximum mobility and an operating experience that is just as dynamic as your projects.

MAIN FEATURES

Wireless transmission	RF Transmission
Reach	Up to 10 meters
Communication address	00 - 99
Communication channel	00 - 30
Remote control battery	1x 3.7 V 2000 mAh battery
Display size	2.5" (6.35 cm)

FURTHER INFORMATION

Weight	108 g
Dimensions	120 x 80 x 25 mm
Item number	JT-DPM-CP
Scope of delivery	JT-DPM-CP
Customs tariff number	8526920090
EAN	4250236819525
