

# RB-CASE+09B

Raspberry Pi 3B / 3B+ black case - upper and lower side with nubs for building blocks

This multipurpose synthetic case is built for the Raspberry Pi.

Because of its nubs it is possible to put building blocks on the case. Additionally, it has prepunched openings for the device. The access to the I/O connection is guaranteed through a slot at the side of the case.

It also has inside attachment points for a Pi camera inside and recesses for the camera lens and the flash.
