

# RASPBERRY PI CASE

RB-Case+12

## 1. GENERAL INFORMATION

Dear customer,

thank you for choosing our product. In the following, we will show you how to use your product.

Should you encounter any unexpected problems during use, please do not hesitate to contact us.

This case is perfect for all maker and handcraft enthusiasts because it protects the Raspberry during experiments and test setups.

## 2. ASSEMBLY

First of all, you should remove the protective film from both sides gently. After that four synthetic spacers must be pinned and attached with synthetic nuts.

Now you can put the Raspberry Pi onto the spacers and screw it tight with four synthetic screws.

Finally, screw the brass spacer tight at the bottom and the top.

### 3. SUPPORT

If any questions remain open or problems arise after your purchase, we are available by email, telephone and ticket support system to answer these.
