

SBC-TTL

USB -TTL Interface converter

Since this USB-TTL interface is based on the widely used CH340G chip, this interface is usually ready for use without additional driver installation. Additionally, the configuration with jumpers allows switching between 3.3V and 5V (supply voltage as well as logic level).

MAIN FEATURES

Interfaces	USB type A, 5 pins
Function	USB-TTL Converter
Chip	CH340G
Voltage	switchable between 3,3V and 5V (Logiclevel- and supply voltage)

FURTHER SPECIFICATIONS

Size	18 x 9 x 53 mm, 20cm cable
Items delivered	SBC-TTL
